Pleasant to be greeted
by an angel with every
feather in place!

I spoke to him of my fear
re GREAT REPLACEMENT!
--even there. But he reassured:

“Not a Worry! There being
a separate but equal heaven
for jungle types and their

yellowish co-libtards!” *Exulted*
I then of course…and, actually,

some black music is quite
interesting. Acceptable!

Plus every major city
possesses a CHINATOWN
with interesting food.

(Use your napkin to clean
the cutlery beforehand
to be sure!)

But surely the greatest glory
in a Heaven for our OWN Kind
is the absence of Socialist
“intellectuals” and their wooly
theories of nothing!
